# IBM API Connect: Simplified & Comprehensive API Foundation

## What is API Connect?

An integrated creation, runtime, management, and security foundation for enterprise grade API's and Microservices to power modern digital applications

## What does API Connect provide?

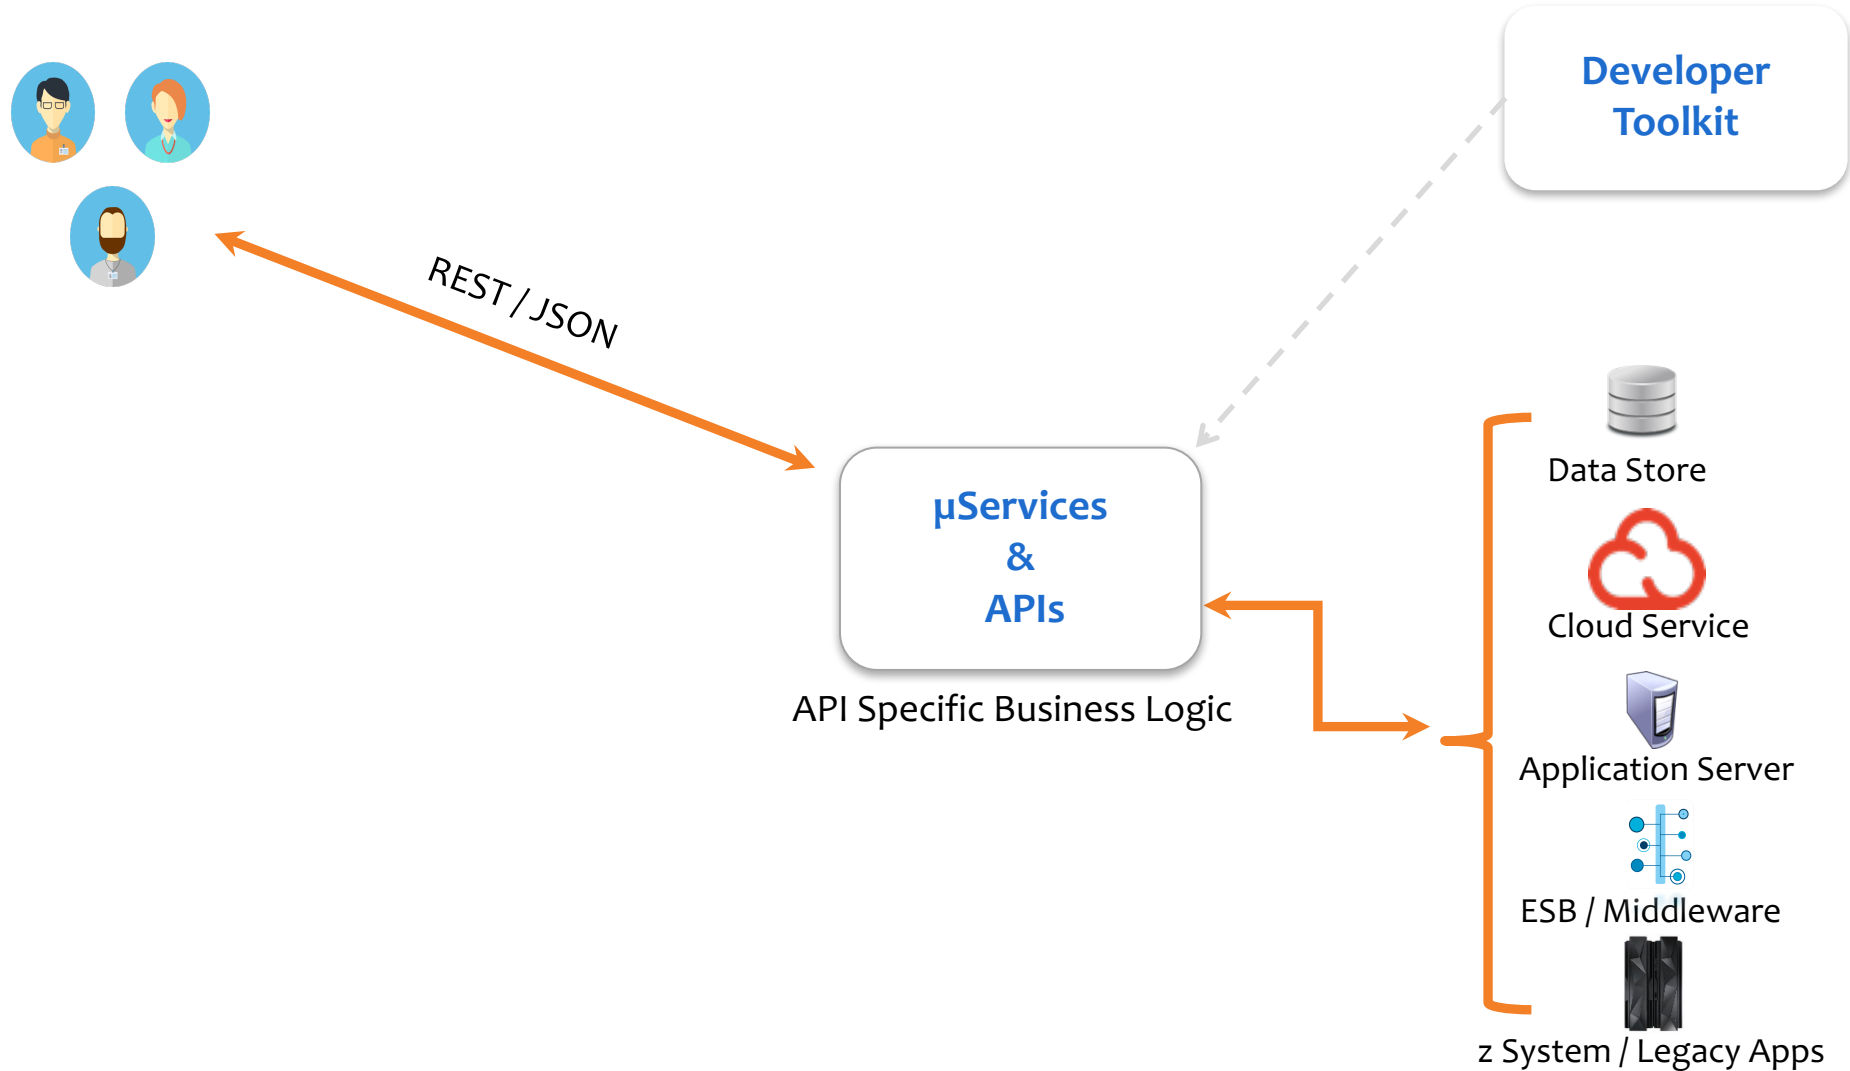

- Automated, visual and coding options for creating APIs
- Automated discovery of system of records APIs
- Node.js and Java support for creating Microservices
- Integrated enterprise grade clustering, management and security for Node.js and Java
- Lifecycle and governance for APIs, Products and Plans
- Access control over API's, API Plans and API Products
- Advanced API usage analytics
- Customizable, self service developer portal for publishing APIs
- Policy enforcement, security and control
